

Job Posting for Project Geologists'

For over 30 years Coast Mountain Geological (CMG) has provided worldwide geological services to our clients with a team of geoscience enthusiasts led by a balanced mix of youthful and seasoned industry professionals. CMG's product is our people, and we believe in fostering a collaborative and inclusive work environment that enables the CMG team to grow upon its successes and make new discoveries.

With active operations in Canada, Europe (based out of our home base of Ireland) and Argentina on a variety of projects ranging from early-stage greenfield through to resource definition drill programs and development activities, CMG is looking to add to its team of Project Geologists.

What you can expect by joining the CMG team:

- Competitive wage/salary/bonus structure
- Comprehensive benefits plan
- Endless opportunities for growth and mentorship from CMG's established geological team.
- Continuous professional development
- Inclusive, collaborative and team-oriented work environment
- Opportunity to work on a variety of projects spanning the mineral exploration life cycle and commodities including precious and base metals, battery metals and industrial minerals

The Project Geologist's main responsibilities will include:

- Field program design
- Health and safety program implementation
- Training and supervision of project personnel
- Drill rig management
- Interpretation of geological data
- Construct and maintain digital project work spaces
- Evaluating field results and QAQC monitoring
- Report writing
- Accurately tracking project expenditures
- Ensuring CMG and client operational standards are adhered to

The ideal candidate will have:

- Professional registration as a Geoscientist in Canada or be eligible to work towards designation as a Professional Geoscientist
- Minimum Bachelor of Science degree in Geology or Earth Sciences (or equivalent)
- Practical and professional experience executing field programs
- Strong interpersonal, communication and time-management skills

- Demonstrated experience of effectively leading people and teams
- Availability to work rotations up to 28 days in length at remote project sites
- Valid BC Class 5 (or equivalent) driver's license
